Iota Chapter of New York

Induction
Sunday March 11, 2018
Watson Commons
Upsilon Pi Epsilon is an honorary society whose membership consists of outstanding undergraduate and graduate students in Computing and Information Disciplines. Only schools that offer a degree in a computing science-related discipline may be chartered. Likewise, prospective student members must be working toward a degree in Computing and Information Disciplines at the time they are considered for membership. Yet members are chosen not only for their scholastic achievement in a computing science program, but also for distinguishing themselves as true professionals by meeting the standards of the society.

Membership is limited to those who can effectively achieve the original goals of the society. These goals include:

1. The recognition of outstanding talent in the field of computing science,
2. The promotion of high scholarship in computing science,
3. The establishment and maintenance of high standards in computing science,
4. The representation of computing science in interdisciplinary communications, and
5. The encouragement of individual contributions to society through computing science.

Upsilon Pi Epsilon is the first and only, existing international honor society in the Computing and Information Disciplines. It has received endorsements from the two largest computer organizations in the world, the Association for Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS).

Spring 2018

Inductees

Kristen Boscarino
Claire Childs
Johan P. Ferreras
Hannah Fishman
Jordan Levin
John A. Null II
Ryan J. Sharpelletti
Jasper Suhr
Michelle Tan
Cameron Viezel
Seung Woo Lee

Officers

Aiden Cullo
Zachary Halpern
Melanie Chen
Juliana Algava
Julie Kunnumpurath
Johnathon Van Atta
